4. Proposed Farm Animal Regulations

The committee reviewed South Windsor's regulations, which were recommended by Jim Gibbons of the UConn Extension System. It was decided to use these regulations as a basis for the committee's recommendations concerning the proposed Mansfield regulations. The committee considered and approved a proposed list of adaptations of the South Windsor version.

A draft of the adapted regulations will be circulated to the committee before a work session in August at a date convenient to all committee members. At this session the committee will review the draft and make further recommendations for revisions.
